

ELIGIBLES TO 'VARSITY FOOTBALL TEAM, LINED UP ON ROLLINS FIELD

"BUSTER" TO BEAT THREE-WEEKS RULE

Carothers Will Arrive Next
Saturday to Play on the
'Varsity Team.

IN MOLESKINS NEXT WEEK

Scrimmage Yesterday Was
Liveliest Yet Seen on
Rollins Field.

W. J. ("Buster") Carothers, for the last three years a 'Varsity fixture, will be in Columbia Saturday in time to enter the University that day, and thus prevent the operation of the three-weeks rule against him. This rule, as enforced by the Missouri Valley Conference, prevents any athlete from taking part in any of 'Varsity games if he enters the University later than three weeks after the official opening of school.

Carothers will be here in time to see the Tigers measure up against the Normals in the first game of the season, but, because of lack of condition and signal practice, will not be put into the game.

Position is Uncertain.

It is yet uncertain what position Carothers will be tried out for. For the last four years, he has played variously at guard, tackle, half and fullback. He is heavy and is built low on the lines of an athlete, weighing around 185 pounds. For his weight he is exceedingly fast, running low and hitting the line hard. He loves to carry the ball, and with his past experience on Missouri eleven, he should make a valuable man for Monilaw this year. He is a possibility at either a guard, tackle, half or fullback position. His addition to the squad will mean that Missouri has nine wearers of the "M" on the field, beside an abundance of other fine material from last year's Freshman and class teams and from the famous All-Americans.

Scrimmage yesterday was even better than the day before and that is saying a good deal. Side line interest increases day by day, and bids fair to exceed all former records by Saturday, if the weather continues ideal.

To Play the Freshmen.

Monilaw expects to line his charges up against Lowman's freshman eleven today or tomorrow, and then the fans will have a chance to gauge the relative merits of two teams, neither of which knows the signals of the other.

In all the scrimmage practice held so far, practically the same signals have been used by both elevens, and thus the side carrying the ball was handicapped and plays which would perhaps have fooled the opponent, were stopped before fairly started.

UNABLE TO STAND TEST, STEWART MAY RETIRE

Blames Impaired Health to Conditions
at Fort Grant.

By United Press.
WASHINGTON, Oct. 1.—The retiring board of the United States army yesterday considered the case of Col. Stewart, who was exiled at Fort Grant, Ariz. Their report will decide whether Stewart is to be retired from service. The surgeon at Fort Grant reported that Col. Stewart was unable to make the ninety-mile ride. Col. Stewart is prepared to show that he is in general good health.

Col. Stewart's brother asserts that if the colonel's health is impaired it is the result of stationing him at Fort Grant as the place is unhealthy and fresh meat could not be obtained there. He also says there was only one habitable building at the fort.

Next Monday, Oct. 5, being a Jewish Holiday, our Store will not be open that day. Victor Barth, the Big Clothier.

HE'S COMING BACK TO HELP THE TIGERS

"BUSTER" CAROTHERS.

NO DETAIL WORK FOR ST. LOUIS U.

Coach Cochems Will Place
Main Reliance on the
Forward Pass.

ST. LOUIS, Oct. 1.—Coach Cochems, of the St. Louis University football team, continues to put his team through practice with the forward pass, on which he will place chief reliance during the season. The men are being schooled in the play with the utmost care. There is no indiscriminate hurling about of the ball, but the men are assigned to positions and are required to execute the pass till they become proficient.

Cochems intends having five men who will be capable of executing the play with great precision this season. To this end he has started out to develop that many men who will be able to make the play when it is necessary to make a long gain. Cornell was making the long pass to Acker, Devlin, Sullivan and Hawkins, and these four men never failed to hurl the ball some 30 or 35 yards with great accuracy to the rest of the squad, who got much exercise by catching the spirals and running down the field. Eddie Murphy was out in uniform, but did not take part in the practice, he still feeling somewhat under the weather. Murphy will be the fifth man on the team who will be seen this season in making the play.

Detail Work Not Required.

Early season football practice is generally dreaded by the players on account of the gruelling they are required to undergo before they learn the rudiments of the game. The most vital part of early practice generally consists of falling on the ball and tackling. Tackling machines are used for the development of the players at this particular part of the game. Football experts will be somewhat surprised to learn that Cochems in rounding out his teams does not require the players forming the squads to do any tackling whatever, and but little falling on the ball. Only when the ball is fumbled in signal practice do any of the men attempt to fall on the oval.

Cochems' idea, his whole system of play, is precision of team play in handling his great diversion of plays. That he has succeeded in making this system a success has been shown in the past several years. Tackling, although a vital point in the game, is the least thought of by Cochems, so long as the player is brought down somehow. It does not matter to Cochems whether the man be tackled around the neck, knees or the feet, so that 'his is accomplished.

Before the next game is played a cap-

UPPER CLASSMEN "SHY" ON GRIDIRON

Junior and Senior Teams Are
Slow in Getting Out for
Practice.

FRESHMEN REPORT IN FORCE

Tentative Line-Up Selected—
Schedule for Inter-Class
Games.

Upper classmen who haven't earned the right to wear the insignia of their class now have a good opportunity to earn the coveted "numerals" by becoming candidates for the senior or junior football teams. Upper classmen have been tardy about reporting to the class team coach, and yesterday afternoon only six men had reported as candidates for the two upper class teams.

The first game of the class team series will be played a week from tomorrow.

Last night Coach Lowman picked out the following men and lined them up as the first Freshman team, subject to changes:

Ed. Anderson, R. E.
Pixler, R. E.
Elmer Anderson, R. T.
Thompson, R. G.
Condit, Center.
Doyle, L. G.
Fausck, L. T.
Long, L. E.
Roberts, Q.
Hackney, L. H.
Logan, F. B.
Eysell, R. H.

Changes May Be Made.

This lineup will not be the regular Freshman team, as Coach Lowman says he could pick another team equally as good from the Freshman material on hand. Nowell will give Roberts and Hackney a good run for quarter. The different candidates will all receive a chance to show their ability, but who will make the first team is yet obscure.

The interclass schedule follows:

Juniors vs. Freshmen, Friday, Oct. 9.
Seniors vs. Sophomores, Monday, Oct. 12.
Sophomores vs. Freshmen, Friday, Oct. 16.
Seniors vs. Juniors, Monday, Oct. 19.
Seniors vs. Freshmen, Friday, Oct. 23.
Juniors vs. Sophomores, Monday, Oct. 26.
Seniors vs. Juniors, Friday, Oct. 30.
Sophomores vs. Freshmen, Monday, Nov. 2.
Seniors vs. Freshmen, Friday, Nov. 6.
Juniors vs. Sophomores, Saturday, Nov. 7.
Seniors vs. Sophomores, Tuesday, Nov. 10.
Juniors vs. Freshmen, Wednesday, Nov. 11.

Games will be played at 4:00 p. m.

Line Men Needed.

About 50 men are trying for the Freshman team, and 12 for the Sophomore.

Some of the Freshmen are promising young players. According to Coach Lowman of the Freshman team, there is good material in the Freshman squad but lack of heavy men, thereby making it a hard matter to fill out the line. The back field of the first year team is a very good one and will develop some very good players for future "Varsity" teams.

The UNIVERSITY MISSOURIAN is on sale at the Drug Shop at two cents a copy.

tain will be elected. At the present time the squad at the Highlands is awaiting the arrival of Archie Lowe, the big fellow who played end on several occasions last year, before making their choice. The position lies between four men Eddie Murphy, at quarter; "Pig" Lamb, at tackle; Frank Acker, at half back, and Archie Lowe, at end

WILL GO TO SEA IN A HOUSEBOAT

Millionaire Plans Trip to
Florida in Costliest Craft
of Its Kind.

WIFE IS TO ACCOMPANY HIM

Amazing Luxury in Craft
Which Eccentric Long
Islander Builds.

NEW YORK, Oct. 1.—Yachtsmen who have sailed the world over in quest of recreation and health are deeply interested in the proposed plan of Edward Becket, Treasurer of the Equitable Engineering Company, of No. 60 Wall street, to sail from New York to Florida in his houseboat Najme, the most splendidly equipped and costliest craft of its kind in America, if not in the world.

Although the boat draws little more than three feet of water, Mr. Becket says there will be no danger when it leaves the inland route in Virginia and rides on the Atlantic around Cape Hatteras and thence along the coast to Florida in tow of an ocean going tug. It is planned to start early in October, and the winter will be spent on the Miami river.

The trip will be a continuation of the honeymoon from which Mr. and Mrs. Becket returned recently after an extended European tour. Mrs. Becket was Miss Sonia Isabel Tripler, a daughter of the late Charles E. Tripler, one of the pioneers in the development of liquid air as a commercial factor. She is popular in society in New York and Paris.

Up to the time of the recent purchase of the Najme from the heirs of George C. Taylor, the eccentric millionaire of Islip, L. I., considerable mystery surrounded the boat. It was built for Betsy Head, housekeeper for the aged millionaire and whose home on the Long Island estate lived with the owner's mansion in magnificence.

Amazing Luxury.

Yachtsmen who have seen the Najme at its present anchorage off West One Hundred and Twelfth street have expressed themselves as amazed by its luxuriant fittings. Her graceful lines, trim masts and burnished brasses suggest at first glance that the craft is a yacht. Closer inspection, however, reveals her to be a houseboat without power. She is 98 feet on the water line and has a 30-foot beam. The Cigarette, owned by an English millionaire, and the Everglades, owned by Col. Thompson, of this city, are the only houseboats in the world which exceed the Najme in length, but neither has more than half her beam.

The Najme is far more spacious than many a summer villa. The interior woodwork, even to the galley, is of mahogany. Below the main deck are four large staterooms with two baths, a commodious dining-room, a saloon and a reading-room. The latter three apartments, combined with a wide hall, can be turned into a ballroom, by removing portieres which otherwise separate them.

Forward on the boat are the kitchen or galley, two staterooms, one for the chef and the other for the maids, and quarters for the crew, which consists of four men and a cabin boy. On the upper deck—the second story of this palatial houseboat—is the "sun promenade," along which are boxes filled with flowering plants. They are in view of the owner's suite, which was designed by E. Cockburn Johnstone, a Scotch shipbuilding expert, and to whose ingenuity the yacht-like appearance of the Najme is due.

The owner's suite consists of a salon, a spacious bedroom and a tiled bathroom equipped with hot and cold salt water or fresh water. A spacious fireplace, which is fed with logs, is installed in the salon.

Equipped with Searchlight.

Mr. Becket purchased the thirty-five-foot mahogany launch, the Syra, with the Najme as a tender. The launch will tow the houseboat down the Raritan Canal, through the Delaware river and into Chesapeake Bay, where a tug will take up the journey around Cape Hatteras to Miami, Florida. Among the modern appliances with which the Najme is fitted is a sulphuric-ether-hydrogen searchlight, the first of its kind, operated by a storage battery of 110,000 candle power.

George C. Taylor built the Najme several years ago from plans drawn by himself. The Najme's lines were first staked off with ropes on the lawn of the millionaire's Long Island estate. He employed expert craftsmen engaged from abroad to carry out his ideas. They were instructed to defer from even driving a nail unless it was with the sanction of Mr. Taylor or Betsy Head. Shipbuilders estimate the cost of the Najme at more than \$200,000.

When the boat was finished Mr. Taylor found he could not get it to the bay

CIGARETTE UNDER BAN IN WASHINGTON STATE

Law Prohibits Selling or Giving Away
"The Makings."

Special Correspondence.

SPOKANE, Wash., Oct. 1.—Judges of the Supreme Court of Washington have decided that the cigarette must go, having agreed that the anti-cigarette law, enacted by the legislature of 1907, is constitutional. This reverses a ruling by Judge E. H. Sullivan of the Spokane county superior court, who declared it unconstitutional, from the fact that the title of the law is in conflict with its provisions.

The decision by the upper court means it is unlawful to manufacture, sell or give away the paper rolls or "the makings" in any other part of the commonwealth. The "coffin nails" were sold openly in Spokane pending the Supreme Court decision, and the effect of the enforcement of the law will be to send thousands of dollars to border towns in Idaho and Oregon, and other states where cigarettes are not under the ban.

The fight against the law was started last year by H. S. Winsor, a former local restaurateur. It was intimated at the time that the "tobacco trust" was back of the litigation to upset the law or gain time to dispose of the big stocks on hand. However, it is made clear that every dealer who handled cigarettes or papers in the meantime is liable, though it is not believed prosecution will be pushed for former offenses.

Next Monday, Oct. 5, being a Jewish Holiday, our Store will not be open that day. Victor Barth, the Big Clothier.

to launch. He had a canal dug from the lawn to the inlet, a distance of half a mile, and in this manner floated the boat. It was moored to a dock at the end of the canal after one trial trip and thereafter was never used. Betsy Head, it was said in the neighborhood, had tired of the costly whim in which she had been indulged by the eccentric millionaire. The houseboat was kept ready for occupancy, nevertheless, but only a few personal friends of Mr. Taylor were permitted to go on board.

Mr. Becket has refitted the boat in the most luxurious manner compatible with good taste. He plans later to install an engine which will drive the boat at a speed of from six to seven miles an hour.

LEADING EDUCATOR AND LINGUIST DEAD

John H. Neville, of Kentucky College,
Was Brother of Columbia Woman.

John Henry Neville, vice-president of the State College of Kentucky for more than forty years, and one of the first linguists of the country, died last night at his home in Lexington, Ky. He had been professor in Greek since his connection with the Kentucky College.

Prof. Neville was a brother of Mrs. Caroline Neville Pearre, of Columbia, who resides at the home of the Rev. Edmund Wilkes, on Price avenue.
